MARYLAND STATE DATA CENTER

Annual Meeting and Workshop

September 2020

10:00 – 12:15

Welcome

10:00 A.M

- Status Census 2020: Response Rates Dashboard

- Covid – 19: Census, Planning, and You

- Finding Historical Data Online

10:45 A.M

- Census MicroData Analysis Tool (MDAT)

11:15 A.M

- Accessing ACS Data and the API

This year, the Annual State Data Center Meeting is virtual. We will be using the GoToMeeting platform. You will receive an email with registration instructions and how to access the event.   Note: This meeting shall be recorded. If you have any questions, concerns, or comments please contact Alfred Sundara, Director of the Maryland State Data Center.

Staff will discuss the status of Census 2020 and Maryland response rates statewide and among the 24 jurisdictions; address the issue of Covid-19 and Population Density, highlight related Census Products (Business and Household Pulse Surveys), and report on the local economic impact in terms of unemployment claims; and demonstrate how to access historical census data, use Census MDAT, and apply the Census API.
